

**Whatever your student needs,  
Colorado Learning Connections  
has the solution.**

At CLC, we help students become engaged thinkers, mathematicians and scientists, writers and historians. Through guided activities and creative problem-solving, our students learn to ask questions and seek solutions.

We serve all ages, pre-kindergarten through adult, and work with you to develop an individualized program designed to meet *your* goals.

In addition to our enrichment workshops and tutoring sessions, we work with a number of athletes, musicians, and other students to develop educational programs that suit their unique academic and scheduling needs.

For more information on any of our programs, please visit our website:

## Fun Physics Phenomena: Gr. 3-4

## Building Better Bridges: Gr. 5-6

## Junior Geologists: Gr. 1-2

Join us for an incredible exploration of mysteries and marvels! Conduct hands-on experiments and be amazed by the results. Stimulate your imagination as the workings of the universe unfold before our eyes! We'll be exploring the physics of light, sound, water, and toys in this dynamic workshop.

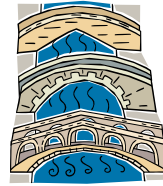

No hard-hat required! Come with creativity and enthusiasm to imagine, design, and construct a masterpiece each week. Using a variety of materials, each of us will erect structure suitable for Hot Wheels and Matchbox cars! Create models using artistic, scientific, and math skills. The finished bridges will be fit for display. Arrive with a vision, build with precision!

Come with us as we explore what lies beneath the surface of our amazing planet. We'll be studying rocks, dirt, crystals, and more – using scientific techniques and methods. Be prepared to get down and dirty as we try our hand at making some rocks and crystals of our own.

**Times: 4:30 - 6:00 pm**  
**Thursdays**  
**April 24 - May 22**  
**Cost: \$160.00**

**Times: 4:30 - 6:00 pm**  
**Tuesdays**  
**April 22 - May 20**  
**Cost: \$175.00**  
**incl. materials**

**Times: 4:30 - 6:00 pm**  
**Thursdays**  
**April 24 - May 22**  
**Cost: \$160.00**

## MindBlazers II: Gr. 4-5

## Our Instructors

Push your brain to its outer limits! In this workshop, students will build advanced math, science, and problem-solving skills through both individual and team projects—it's going to be a blast! We'll be thinking like scientists, mathematicians, and inventors as we solve long and short-term problems. This workshop is for both new and returning MindBlazers—please call CLC to find out if this challenging workshop will be a good fit for your student.

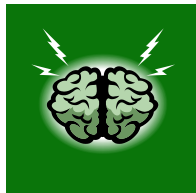

**Rebekah Simon** is the owner and director of CLC. She has taught in public, charter, and independent schools working with students Pre-K through adult. Rebekah specializes in individualized education, working with families to create customized programs including tutoring, test preparation, home-schooling, and college counseling.

"A mind stretched by a new experience can never go back to its old dimensions."

**Heather Crandall** spent much of her childhood in the interior of Alaska. After graduating with her degree in Elementary Education from University of Alaska—Fairbanks. Heather taught reading and later began teaching in a multi-age classroom at a private school in Alaska. Tutoring at CLC has given her the opportunity to combine working with children and her love for the outdoors.

~ Oliver Wendall Holmes, Jr.

**Times: 4:30 - 6:00 pm**  
**Wednesdays**  
**March 5 - May 28 (no class April 16)**  
**Cost: \$350.00**

**Ryan Frank** joins us with a degree from Northland College in Northern Wisconsin, and 7 years of experience as a leader in educational, recreational, and therapeutic environments.
