

# 2010 Summer Workshop Series

## Writing in Nature

Grades 2-5

Dates & Times: Tuesdays  
June 15—July 20  
10:00-11:30 am

Experience nature through art and writing. In this workshop, we will travel on foot, exploring parks and pathways throughout Frisco, connecting with our senses, and observing our surroundings. Students will learn how to connect their experiences with the written word and discover new and different ways to express themselves.

## Genetics

Grades 4-8

Dates & Times: Tuesdays  
June 15—July 20  
4:30-6:00 pm

Have you ever wondered how plants and animals know how to grow, what color to be, when to make leaves or flowers, whether to grow an ear or an eye? If so, then this workshop is for you! Discover the fascinating facts about the blueprints of life and how genes work. We'll explore the science of genetics from cell and DNA structure to mitosis and Mendel.

## The Secret Life of Wetlands

Grades 1-4

Dates & Times: Thursdays  
July 1—August 5  
4:30-6:00 pm

Come discover what lies beneath the surface of Summit County's marshes and wetlands. This workshop will meet at various locations throughout the County in order to explore these habitats and meet our plant and animal neighbors face to face. We'll look at the wetlands from biological, historical, and environmental angles in this hands-on course.

## Philosophy

Grades 5-8

Dates & Times: Wednesdays  
June 30—August 4  
4:30-6:00 pm

Build critical and creative thinking skills while examining universal concepts. This workshop will focus on learning to ask and consider relevant questions, forming unique opinions, articulating support for these opinions, and expressing yourself in a variety of creative forms. Come prepared to learn from great thinkers of the past and become a great thinker in the present!

## Picturing America

### Section A

Grades 1-4

Wednesdays  
June 30—August 4  
4:30-6:00 pm

Sponsored in part by a grant from the National Endowment for the Humanities, this workshop will explore American history and culture through the use of art, artifacts, and primary documents. This is not your textbook American History course! Both groups will use visual thinking strategies to critically examine paintings, photographs, sculptures, architecture, and artifacts from diverse periods in American history. In addition to our on-site print collection from the NEH, we will be exploring artwork through a live virtual gallery tour in the Newark Museum with one of their educational specialists. Hands on activities, discussions, and writing will round out this unique workshop.

### Section B

Grades 5-8

Thursdays  
July 1—August 5  
4:30-6:00 pm

<input type="checkbox"/> Picturing America (B)	\$175.00		

I'm not interested in Summer Workshops; please continue to send me information.

## Our Instructors

**Rebekah Simon** is the owner and director of CLC. She has taught in public, charter, and independent schools working with students Pre-K through adult. Rebekah specializes in individualized education, educational consulting, and college counseling.

**Heather Crandall** spent much of her childhood in the interior of Alaska. Heather received her degree in Elementary Education from the University of Alaska-Fairbanks and enjoys working with students of all ages.

**Ashley Hotz** grew up in the small town of Grand Island, Nebraska and later graduated from Hastings College with degrees in English and Philosophy. She is an avid and ambitious snowboarder with a great love for working with and teaching children.

**Dani Beavers** left the rolling hills of Maryland to see more of the world and, after graduating from Alverno College in Milwaukee, WI, her restless ways took her west to Frisco, CO where she has been for the past 14 years. Dani uses her Master's degree in Secondary Education to improve the reading and writing skills of the CLC students.
